ABOUT ME

A Bachelor of Information Systems graduate from Universitas Pembangunan Nasional "Veteran" Jawa Timur. I have a strong interest in information technology, with skills in programming and design. During my studies, I worked on various projects, including desktop and mobile application development to website development, as well as designing UI/UX for mobile applications and websites. I was also actively involved in organizational activities, which helped me develop strong communication, leadership, and teamwork skills. I am passionate about continuous learning, developing my skills, and adapting to professional environments to make meaningful contributions.
